

## Maple Class Snow Homework

### **Literacy**

We have been looking at newspaper articles. Show me that you understand how they are laid out and the style that they are written in (maybe you can write one about the snow!).

### **Numeracy**

Show me that you understand how to multiply:

- a) Large numbers that are multiples of 10.
- b) HTU x TU (3 digit numbers by 2 digit numbers).

Don't forget to have a go on Mathletics!! I will be seeing who logs on and complete the most tasks :o)

The member of the class who brings in the most interesting and detailed homework wins a prize! 😊
