

Science: What makes a healthy diet? Make a menu with a starter, main and dessert which are balanced. What are vitamins, proteins and carbohydrates? Are they important in your diet?

Tricky words:

Suspense, tension,  
irregular, vindicate,  
allowance, fragrance.

Try and find out what they mean.

Maths:

Show me you can turn fractions into decimals at least 6 examples. Or show me you can order 5 decimal numbers that you choose.

Literacy:

You are to be evacuated.

What would you pack? What worries would you have? Would a journey on a steam train seem exciting? Write a short diary entry of the day you left home for the station and your arrival in an unknown destination.

Where did you end up? You may want to look at the BBC site:

<http://www.bbc.co.uk/ww2peopleswar/stories/35/a4678635.shtml> for a real account of an evacuee.

If you like you could make a video of your day.

Art:

Sir Henry Moore was a well known sculptor and artist, who drew rather unusual pictures of picture in the underground. Draw your own version of one of his pictures.
