

Reception Homework

Set Thursday 9th February – to be complete by Wednesday 22nd February

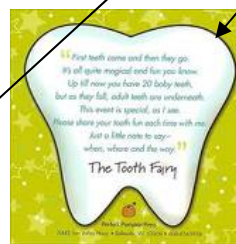

Last week you planted your own bean and learnt how to look after it. Can you remember the 3 things a plant needs to help it grow?

Over the next two weeks keep a bean diary. Write down any changes you see, when you water it and what you think will happen.

Can you create a labelled diagram of a plant as well? You could draw it, use the computer or even make a model!

Remember to read your story books.

Can you show your parent where the **title**, **author** and **blurb** (on the back of the book) is?

Remember to look at your yellow Keyword book!
You will be tested your keywords on
Wednesday 22nd February
