

15th June 2026

Dear Parents,

As part of our DT work this term the children will be designing, making and evaluating their own miniature box garden. In preparation, we would like the children to collect some things that will help them when they begin to make their garden:

- A shoe box (with child's name on) and **any spares** if you have them
- Different types of paper that would create interesting textures/colours
- Some small stones/sticks/pebbles etc
- Small plastic flowers, leaves, foliage
- Any other small things that your child would like to include in their garden.

The children do not need a huge amount as we do have some resources in school, these things will however help to make their work more individual.

Please bring any resources in from **Monday 22nd June - Friday 26th June 2026**.

We will be making them the week after this.

Thank you for your support.

Ms Christmas 😊
